
Software Intelligence Acquisition: Frequently Asked Questions

About the Acquisition:

Q: Who is Software Intelligence?

Software Intelligence is a privately held company specializing in records management solutions. The company is one of the largest independent providers of RM technology with over 100 customers including 40 law firms.

Q: What capabilities does Software Intelligence add to Interwoven?

Software Intelligence has a comprehensive physical (paper) RM system that has been selected by customers in the 250 largest U.S. law firms, the Big 4 Accounting firms, and the Fortune 500. Interwoven chose Software Intelligence for its complementary focus on, and success within, the legal market; its flexible and robust product set; and a matching culture that will promote a swift and effective merging of our businesses.

Q: When will the acquisition be completed?

The transaction is complete – the definitive agreement and acquisition of assets are both final.

Q: What was the purchase price of the acquisition of assets?

Interwoven purchased the assets of the company for approximately \$2 million in cash and stock.

Q: Will the RM solution be offered domestically and internationally?

The Interwoven RM solution will be available to Interwoven customers worldwide immediately. The initial release, based upon the excellent work already completed by Software Intelligence for its more than 100 customers, will be available in English. Later releases will offer localizations and internationalizations in line with Interwoven's standards.

Q: How will this be integrated with all of Interwoven's products? When will the integration be completed?

Interwoven will extend the reach of Interwoven Records Manager to manage records in any of its application through our industry-leading Service-Oriented Architecture (SOA). This framework will make it possible not only to manage records in TeamSite, MediaBin and WorkSite, but other third party systems as well.

Q: Is more information available?

Information on Interwoven Records Manager is available at <http://www.interwoven.com/rm>

About Software Intelligence:

Q: If I'm an existing Software Intelligence customer, what will happen to my RM product?

Interwoven is committed to providing you a comprehensive RM product. Your products will continue to be supported by Interwoven. For the next 90 days, contact 1-800-255-2528 or support@softwarent.com for technical support. More communication from Interwoven will be sent to you from Interwoven on product updates, technical support, contact information, etc.

Q: What about my team at Software Intelligence?

Key members of SI have already joined the Interwoven team as part of the acquisition of assets. The personnel you have been working with are still available for you to contact.
